LAND ACKNOWLEDGEMENT

The City of Hamilton is situated upon the traditional territories of the Erie, Neutral, Huron-Wendat, Haudenosaunee and Mississaugas. This land is covered by the Dish With One Spoon Wampum Belt Covenant, which was an agreement between the Haudenosaunee and Anishinaabek to share and care for the resources around the Great Lakes. We further acknowledge that this land is covered by the Between the Lakes Purchase, 1792, between the Crown and the Mississaugas of the Credit First Nation.

Today, the City of Hamilton is home to many Indigenous people from across Turtle Island (North America) and we recognize that we must do more to learn about the rich history of this land so that we can better understand our roles as residents, neighbours, partners and caretakers.

Approach to the Themes & Process

- In anticipation of support for the Heritage Theme, City staff and the design team consulted with Niwasa Kendaaswin Teg which is a local non-profit community group that provides high quality programs and services to the Indigenous population in Hamilton, Brantford and surrounding areas.

- Discussions were thought-provoking and led to a recommendation to combine the three top themes together in an expression of nature and all it's creatures.

- The team will continue to work with Niwasa Kendaaswin Teg throughout January 2022 to further develop a single design option, rather than multiple options.

Approach to the Themes & Process

- Your feedback on topics included in this presentation will help the design team move forward towards a preliminary design option.
- Community feedback combined with guidance from Niwasa Kendaaswin Teg and the expertise of City staff, and the design team will produce a mindful and appropriate design solution for the new spray pad.
- It is anticipated that the developed design for the project will be presented back to the community in February 2022.
