Action Tracker

The Action Tracker includes information with respect to the status of new or existing complaints and requests for service that have been received by Licensing and By-law Services. Occasionally, after a site has been designated by staff as cleared, different individual(s) may move into the same location and erect a new tent. Any time new tents are discovered in an area that has been previously cleared, the process will restart with officers attending to confirm the presence of an encampment and notifying HFSO of an individual that may require support. As such, a site may appear on the tracker more than once. Once a private property owner has been notified of the process, they are responsible for contacting the appropriate enforcement body.
